

Patient Family Advisor Recruitment

Sun Country Health Region Makes Patients a partner in improving Care and Services.

Sun Country Health Region is committed to providing the highest quality, safe care to patients at their moment of need. We are always looking to improve the care we provide, and part of that effort comes from learning through the experiences of our patients and their families. As a further extension of our commitment to improve our region to provide the very best care possible for our community, we are seeking additional Patient/Family Advisors to work with us.

These Patients/Family Advisors, along with Sun Country Health Region staff and physicians, form an Advisory Council that provides direct input into policies, program and practices that affect the patient experience at Sun Country Health Region. New advisors will be encouraged to share their first-hand experiences and provide on all aspects of care, including access to services, patient information, program and space design, signage and communication.

This Patient/Family Advisory Council (PFAC) is another step to delivering Sun Country Health Regions goal to involve and Partner with the community and receive its input to enhance overall quality healthcare. We believe that the best level of healthcare is provided when patients and families are involved in the planning and delivery of that healthcare. Patient/Family Advisors can also choose to work on short term improvement projects, such as rapid process improve workshops, Kaizen events

To apply please "[R:\PFAC Application form](#)" to print off and complete and application form, and once complete please contact Leslie Gamble at leslie.gamble@schr.sk.ca or 306-842-8226

PFAC members are recruited through communications to Sun Country Health Region's staff, physicians, families and community. Applications are accepted year round and candidates are screened, and interviewed by the PFAC leadership chairs and facilitators. Once candidates are screened, members are selected based on factors such as; capacity to listen, sharing thoughts and opinions on health experiences, offering different points of view and their representation of the Sun Country Health Regions community at large.
