

PATIENT AND FAMILY ADVISORY COUNCIL

VISION STATEMENT:

“Partners in Care”

MISSION STATEMENT:

Actively Engaging Patients, Families and Staff, to partner for the Best Care.

TAG LINE:

Together, We're Better

“The voice of the patient is dominant here. One patient doesn't speak for all patients so it is important to bring together as many people as you can. The patients and families are who we check with on everything we do.”

Quote from Jim Stam¹
